

WET LINE MARKER

The Bannerman Wet Line Marker is a simple, practical tool for line marking on grass surfaces using low-cost latex paint. A sturdy, well balanced machine with two wide pneumatic tires at the base of the handle, creating a comfortable fulcrum for raising the marking belt off the ground for easy turning and manoeuvring. Mark with low-cost latex paint. No harmful dust or vapours to harm humans, wildlife or the grass.

Positive alignment for easy steering on straight lines or curves. (Use a stake and tether line to produce perfect curves and circles).

Simple to change belts for line widths of 2" (51mm), 3" (76mm), or 4" (102mm) without tools.
